Features of the Sahulat Trading Account

- A Sahulat Trading Account can only be opened as an individual single account. Joint accounts are not permitted.
- The account can be opened with minimum documentation, requiring:
    - A valid CNIC
    - Bank account details
    - A registered mobile number

  In cases where the account is sponsored by another person, the following details of the sponsor are also required:
    - Valid CNIC
    - Occupation
    - Annual income details
- The trading limit for a Sahulat Trading Account is PKR 3 million.
    - Investors may purchase securities up to PKR 3 million per brokerage account.
    - Securities may be sold up to their full market value.
- Sahulat Account holders may convert their account to a Normal Trading Account at any time, subject to fulfilling the applicable Know Your Customer (KYC) requirements for a Normal Trading Account.
- Sahulat Account holders are permitted to trade freely in the Regular Delivery Contract Market (Ready Market).
- Trading in leveraged products is not permitted under the Sahulat Trading Account. This restriction includes:
    - Margin Trading System (MTS)
    - Margin Financing System (MFS)
    - Securities Lending and Borrowing (SLB)
    - Negotiated Deal Market (NDM)
