HASCOL: Declaration of 20% right issue at a premium of PKR 155/share

- According to notice issued by Hascol Petroleum Limited (HASCOL) on Pakistan Stock Exchange (PSX), the company has announced a right share issue of 20% (20 shares for every 100 shares held) at a premium of PKR 155/share.
- A 20% right issue comes at additional 24.14mn shares taking total outstanding number of shares to 144.82mn.
- As a result the company is expected to raise PKR 3.98bn through proceeds of right share issue.
- Based on our estimates, the ex-right price for HASOCL comes at PKR 277.64/share assuming current price of PKR 300.17/share (13th Sep-2017), which is ~8% lower than current share price.
- To recall, HASCOL has been aggressively pursuing expansion in to retail outlet and storage facilities to cater the rising demand and achieve efficient supply chain management. We believe the purpose of right share is likely to meet the capital expenditure requirement for planned expansion in to storage facilities.
- HASCOL completed its storage capacity expansion at Mehmood kot during 1HCY17 and has planned to install new storage facilities at Kotla Jam, Hub and Thalian in the next two years including a joint venture with Vitol to install new storage facility at Port Qasim through its subsidiary Hascol Terminals Limited of nearly 200,000 Mtons (expected to be completely operational by end of CY18).

Rating system: IGI Finex Securities employs three tier ratings system, depending upon expected total return (return is defined as capital gain exclusive of tax) of the security in stated time period, as follows:

Recommendation	Rating System
Buy	If target price on aforementioned security(ies) is more than 10%, from its last closing price(s)
Hold	If target price on aforementioned security(ies) is in between -10% and 10%, from its last closing price(s)
Sell	If target price on aforementioned security(ies) is less than -10%, from its last closing price(s)

Risk: Investment in securities are subject to economic risk, market risk, interest rate risks, currency risks, credit risks, political and geopolitical risks. The performance of company(ies) covered herein might unfavorably be affected by multiple factors including, business, economic, and political conditions. Hence, there is no assurance or guarantee that estimates, recommendation, opinion, etc. given about the security(ies)/company(ies) in the report will be achieved.

Basic Definitions and Terminologies used: **Target Price:** A price target is the projected price level of a financial security stated by an investment analyst or advisor. It represents a security's price that, if achieved, results in a trader recognizing the best possible outcome for his investment. **Market Cap.:** Market capitalization is calculated by multiplying a company's shares outstanding by current trading price. **ROE:** Return on equity is the amount of net income returned as a percentage of shareholders' equity. **P/E:** Price to Earnings ratio of a company's share price to its per-share earnings. **P/B:** Price to Book ratio used to compare a stock's market value to its book value. **DY:** The dividend yield is dividend per share, divided by the price per share.
