- Leaders and Laggards by Market Capitalization
- Key domestic news during the month.

Exhibit: KSE 100 Index

Index up by a meager +1.2% in Dec-17, ending on a good note due to political clarity

Starting the month at above ~40K, KSE-100 index soon fell below the level and touched a low of 37,919, marking a decline of 2,090 points. However, soon after, the market rebounded to close the month off at 40,471. On a monthly basis, the numbers represent a meager +1.2% growth. Average trading volumes of the market were recorded at 165mn shares, up by ~47%MoM in Dec-17 as compared to average 113mn shares registered in Nov-17. The increase in volume depicts an improvement in sentiments due to greater political clarity.

- During the month, Moody's Investors Service spelled out constraints in the Pakistani economy highlighting high debt burden, very narrow revenue base, fragile external payments position and high political uncertainty.
- The Senate passed the constitutional amendment to pave the way for delimitation of electoral constituencies on the basis of population census with a two-thirds majority to remove the obstruction to the holding of the next general elections according to schedule.

JamaPunji

Fundamental knowledge and understanding of financial market is crucial for general public and lack of financial literacy and capability makes general public vulnerable to frauds. The Securities and Exchange Commission of Pakistan (SECP) while recognizing the importance of investor education has initiated an investor education program, 'JamatPunji'.

It aspires to improve their financial literacy and capability which can help them make sound financial decisions through the provision of general financial education across the entire financial sector, ranging from banking and insurance to investing and retirement planning as well as generic money management.

JamatPunji would help the investors to take prudent measures before entering into a contractual agreement with a financial services provider, educate investors on strategies to mitigate risks associated with various investment products, engender investor confidence, and lead to an effective investor protection regime.
